SERVICES

Qi habitats designs and develops innovative living and working spaces to accommodate client's lifestyle and budget. We help our clients with the process of searching, acquiring, designing and renovating properties. Our focus is on design driven projects that range from development of apartments, lofts, offices and retail stores to townhouses and buildings.

Our services also allow for real estate property searches to meet client's criteria, property feasibility studies and recommendations for design and renovations.

In addition to our core team of Architects, Interior Designers and Real Estate Professionals, we frequently engage other experts to optimize a particular client solution. We often team up with Lighting Designers, Sustainability Engineers, Landscape Designers, Graphic Designers, Visual Artists and Feng Shui Masters.

We coordinate and manage all aspects of a project from start to finish:

- Real Estate Property Search
- Feasibility Studies
- Recommendations for Design and Renovations
- Schematic Design and Design Development
- Construction Documents
- Construction coordination including Contractors, Consultants and Engineers
- Selection of all Finishes and Fixtures
- Furniture layout, specifications and purchasing
- Styling and accessories selection and purchasing
